ENCLOSURES

Specialized Enclosures For The Beverage, Food Service And Vending Industries

Schools Universities Stadiums

Model features/options:

- Custom colors and graphics
- Optional security door/motor operated with remote control
- Interchangeable graphics
- Optional awning

"The enclosures bring the necessary incremental value to secure previously "non-viable locations" because of their customizable aesthetics capabilities. Important to mention, these are typically in locations that are considered some of the highest volume opportunities within that property, resort, etc. So the incremental cost is minimal based on these higher VPO machines"

Coca-Cola Account Executive

Mass Transit Bus Stations Transit Centers

Model features/options:
